Caliper Information Sheet

There are 3 popular Brake types within the Knorr Bremse Caliper range - SB, SN & SK. The SB range which was a 2 piece caliper has evolved into the SN range which is now a one piece calipers (or Monoblock). The SK is also a Monoblock caliper which is specially designed for Trailer applications with 22.5" Wheels. The SN & SK calipers have been have been designed so they replace the early SB calipers. These Rationalised calipers have reduced 1900+ OE fitted disc calipers to 116 part numbers. These replacement calipers are not always fitted with same components as used on the original caliper, therefore it is vitally important to identify the caliper fitted when ordering replacement parts.

17.5" Wheels = SB5 & SN5

Single Piston / used with 335mm Brake discs

19.5" Wheels = SB6 & SN6

Twin Pistons / used with 377mm Brake disc

22.5" Wheel = SB7, SN7 & SK7

Twin Pistons / used with 430mm Brake disc
Both Axial and Radial Calipers available

Axial Calipers

Chamber fits horizontally into caliper

Radial Calipers

Chamber fits vertically into caliper

MERITOR

An Introduction to Meritor Brake Calipers

Meritor calipers part numbers start with LRG and finish with a 3 digit ID number. With this numbering system, caliper kits can be easily identified.

The range consists of both hydraulic & air actuated calipers for vehicle wheel sizes ranging from 16" for vans up to 22.5" fitted to truck, trailer & buses. The caliper range includes both axial and radial versions and can be either 1 or 2 piece calipers. For more information on the different type of calipers, please see the following pages.

The Majorsell kits will cover over 150 calipers and our kits have been adapted to increase effective servicing and reduce costs.

The Meritor Caliper is used on very popular applications, such as:

Ford Cargo :	Hydraulic Calipers
Iveco Eurocargo :	Hydraulic Calipers
Mercedes Vario :	Hydraulic Calipers
Renault Magnum :	D3 / LISA / ELSA
Ror Trailers :	DX195 / DUCO / ELSA
Volvo FL, FH, FM :	DUCO

Original names & part numbers are used for reference only. All parts offered are Majorsell brand and may not be of an original supply. Majorsell kit content may be different to the original.
