

# THE COMPANY

Based in the North West of the United Kingdom, New World Air Brake specialises in the wholesale and distribution of air brake components to companies all over the world.

Since commencing trading in March 2003, the Company has rapidly expanded to become one of the UK's premier stockists of commercial air brake equipment. In fact it would be fair to say that the company is now one of the largest truly independent air brake suppliers in Europe. From an original staff of just three, working from a small depot, the business now employs over 30 people at its central offices and warehouse in Warrington.

## THE SERVICE

New World's business philosophy is simple:

**“We aim to provide an unparalleled level of service to our customers”**

How do we achieve this?

- **Quality Parts**  
We only supply parts of the highest quality.
- **Dedicated Staff**  
Every member of our staff is fully dedicated to delivering on customers' expectations.
- **Technical Expertise**  
Years of industry experience, combined with state of the art technology, allows us to identify customers' part requirements, even from just a vehicle chassis number.
- **Delivery Service**  
New World offers a next day carrier service across Europe.
- **After Sales Service**  
Our commitment to the customer does not end with a sale. Customer satisfaction is of paramount importance before, during and after every transaction.

## THE PRODUCT

What can New World offer you?

Original Equipment Parts

- Wabco
- Knorr-Bremse
- Haldex

New World Branded Parts

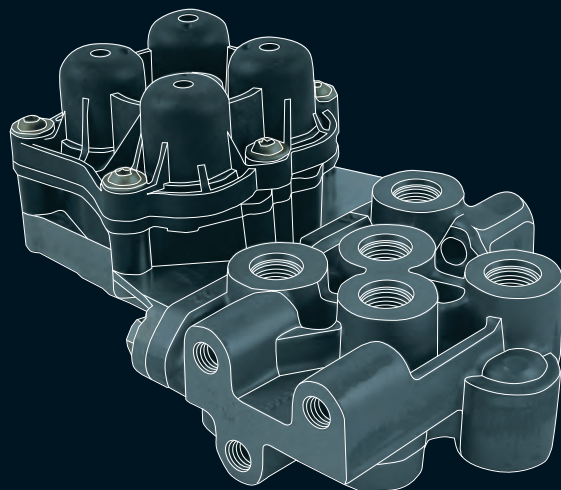

An extensive range of new, quality-tested parts offering a cost-effective alternative to original equipment.

All Popular Braking Systems

- ABS

## OVERSEAS

New World Air Brake has an extensive global network of suppliers and customers. The company has forged many successful relationships with similar overseas enterprises which are happy to operate outside the restrictive agreements under which authorised distributors must work. New World is happy to provide such companies with either a UK source or a UK distribution centre, with a guarantee of complete discretion. The company is constantly looking to develop its network of high quality customers and suppliers.
